Glu is where  
**consumers come to discover  
cryptocurrencies**

# Thousands of cryptocurrencies means...

Information is  
fragmented and  
incomplete

New consumers  
are confused  
and lack trust

New  
cryptocurrencies  
can't get traction

# We solve this by providing...

Clear, consistent  
information and  
ratings

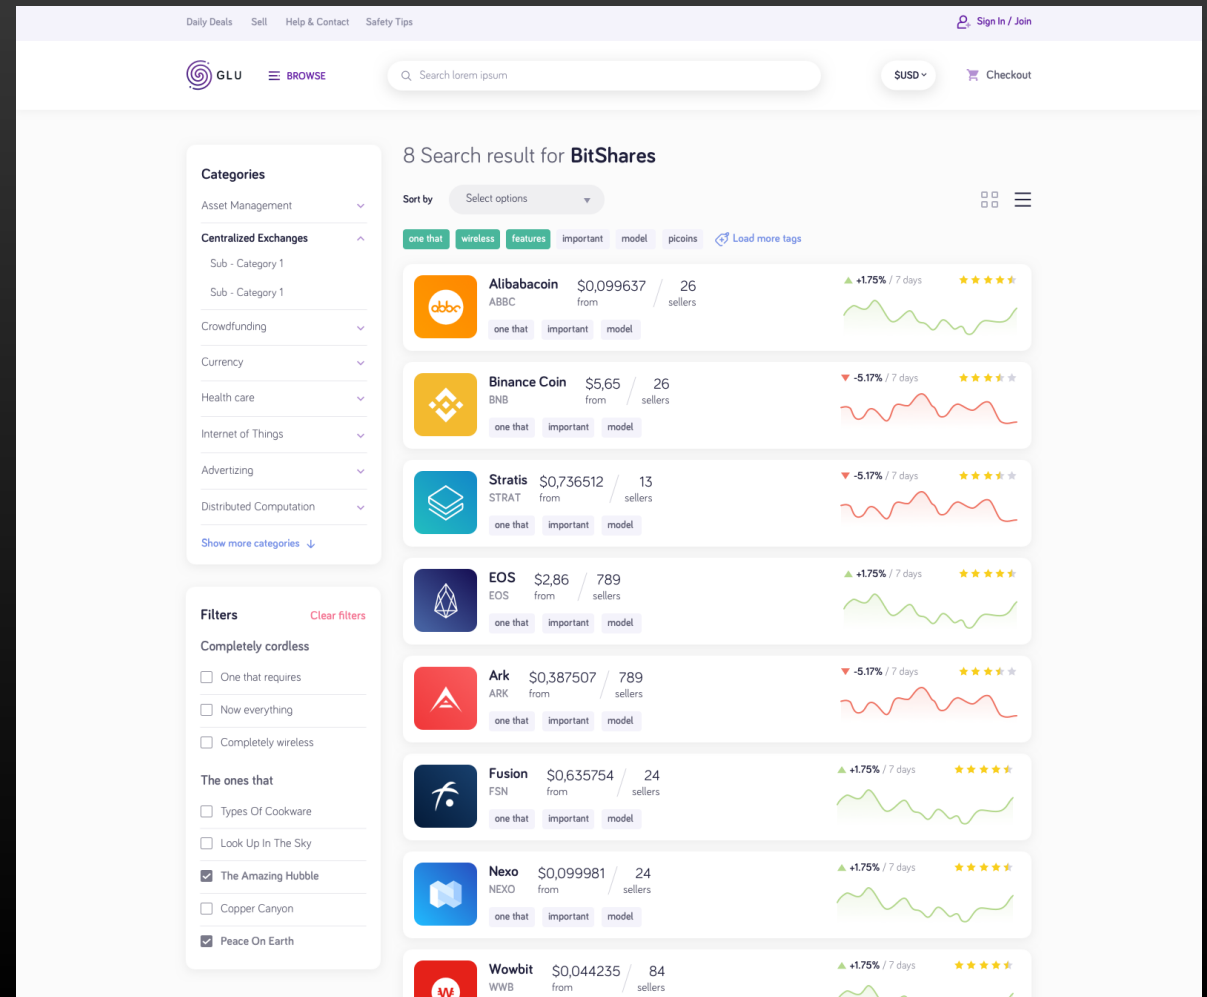

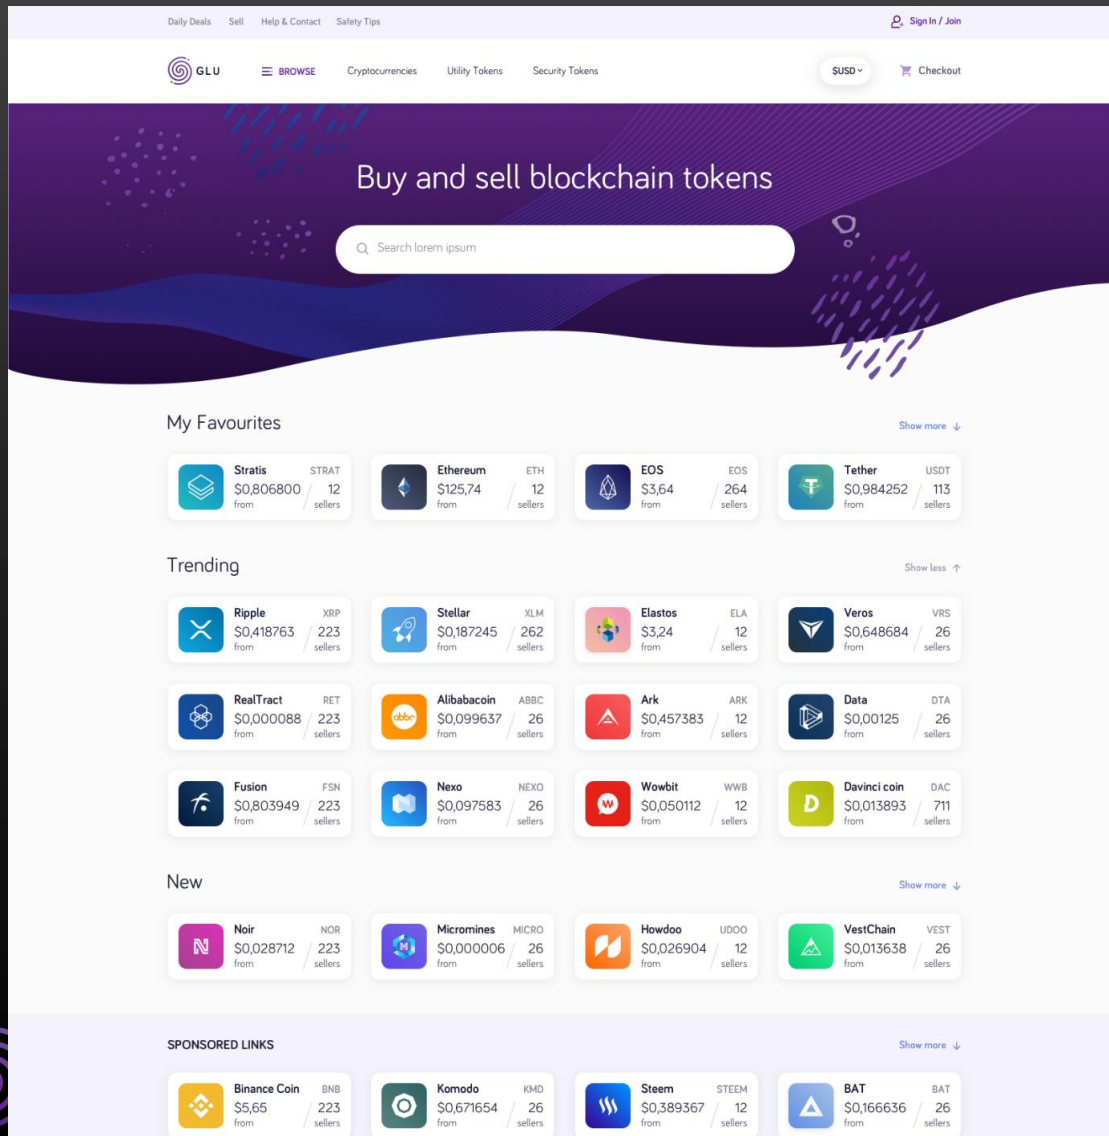

Reviews, social  
proof and  
engagement

Trusted guidance  
and community  
support

# Customers see a distinctive product design...

# Easily find the information they need...

## DESCRIPTION REVIEWS

The Myspace page defines the individual, his or her characteristics, traits, personal choices and the overall personality of the person. The page also has a number of identity related issues that can be linked on the Internet to get connected to people of common interest and issues. They can be preferred forms such as hobbies, interests and common issues followed by the people in the general. People connect to each other on the Internet using the Myspace profile. But how does on improve the profile on the Internet using the tools and design aspects? It depends on the background employed by the user of the account. The background conveys many things to the visitors of the page. The
